

## Nature conference-"Advances and Applications in Plasma Physics"

Peter the Great St. Petersburg Polytechnic University is pleased to announce that the registration and submission of abstracts to international scientific conferences is open ·"[Advances and Applications in Plasma Physics](#)".

This is the first conference held in Russia by the world-famous publisher Nature. As part of the thematic sessions on controlled thermonuclear fusion, space plasma, low-temperature plasma and laser-plasma interactions, leading scientists from Russia, the USA, Great Britain, Germany, and Japan will take the floor as invited speakers. Review lectures will be presented by the International Atomic Energy Agency and the State Atomic Energy Corporation ROSATOM.

You can find more detailed information, register and download an annotation on the conference [website](#).
