

IEEE EExPolytech-2018: Electrical Engineering and Photonics

The conference is organised by Institute of Physics, Nanotechnology and Telecommunications of Peter the Great St.Petersburg Polytechnic University, Saint-Petersburg, Russia.

2018 IEEE International Conference on Electrical Engineering and Photonics (EExPolytech-2018) is a conference that aims to bring together specialists in Electrical Engineering and Photonics. The topics cover diverse applications in technology fields such as imaging, communication, sensing, and instrumentation, as well as the sciences such as biology and medicine, chemistry and fundamental physics. The conference is designed for researchers to report on the latest findings on Electrical Engineering and Photonics and stimulate scientific exchange among researchers and engineers from industry and academia.

Topics

1. The main topics to be discussed at EExPolytech-2018: Electrical Engineering and Photonics are the following:
2. Circuits & Systems for Telecommunications
3. Algorithms & Signal Processing
4. Materials & Nanoscience
5. Photonics

Important dates

Full Paper Submission date:

10st of September 2018

Notification of acceptance date:

05th of October 2018

Final Paper Submission date:

10th of October 2018

Papers

The papers should be written in IEEE/CAS A4 format (double column including paper title, authors' names and affiliation, short abstract). They should not exceed 4 pages (including figures and references). Authors are expected to present their papers at the Symposium. At least one author of each accepted paper must register in order to have the paper included in the program and Proceedings.

All papers should be sent to eexpolytech@spbstu.ru
